

I_Site – E-learning access request

To access the I_Site e-learning you need to follow the steps below:

1. Use the e-learning link on the I_Site help page to get to the Academy portal.
2. Enter your I_Site credentials and log in. This will register your account in the portal. You will come to a page that says that self enrolment is not possible and no courses will be available yet.
3. Send an e-mail to your local I_Site Product Manager or Key User and ask for access to the I_Site e-learning. Clearly state your name, e-mail address and company name.
4. Once you get confirmation that you have been added to the e-learning, you can login to the Academy again and will now be able to enter the course.
