

# Advantages of Automated Guided Vehicles

There are a range of reasons for using automated guided vehicles (AGVs). Whether warehouse driven delays are a common issue or your everyday workflows include a vast

amount of manual, repetitive tasks. AGVs can drastically improve workspace safety and the ergonomic conditions of your workplace.

Direct labour cost reduction

Avoid workforce shortages

Avoid mistakes

Improve traceability and inventory accuracy

Layout freedom

Increased productivity

Modularity or scalability

Increased safety

Improved ergonomics

Minimize infection risk

Indirect cost reduction
